

# HEALTH CARE

Turning Medical  
Reimbursement Chaos  
**Into Searchable,  
Reportable Data**

A law firm helping medical practices recover insurance reimbursements was buried in **medical records, bills, MRI scans, prescriptions, doctors' notes, payment files, arbitration documents, and legal correspondence.**

Everything lived across paper, spreadsheets, emails, faxes, verbal agreements, and disconnected tools.

The result: **slow case visibility, duplicate work, missing data, manual errors, and delayed reimbursement tracking.**

# Client Challenge.

HEALTH CARE

# Solution Delivered By Zfort Group.

Zfort Group built a secure digital case, document, payment, and reporting platform for the full legal-medical reimbursement lifecycle.

The platform gave teams one place to manage:

Medical practice data

Case files

Document intake

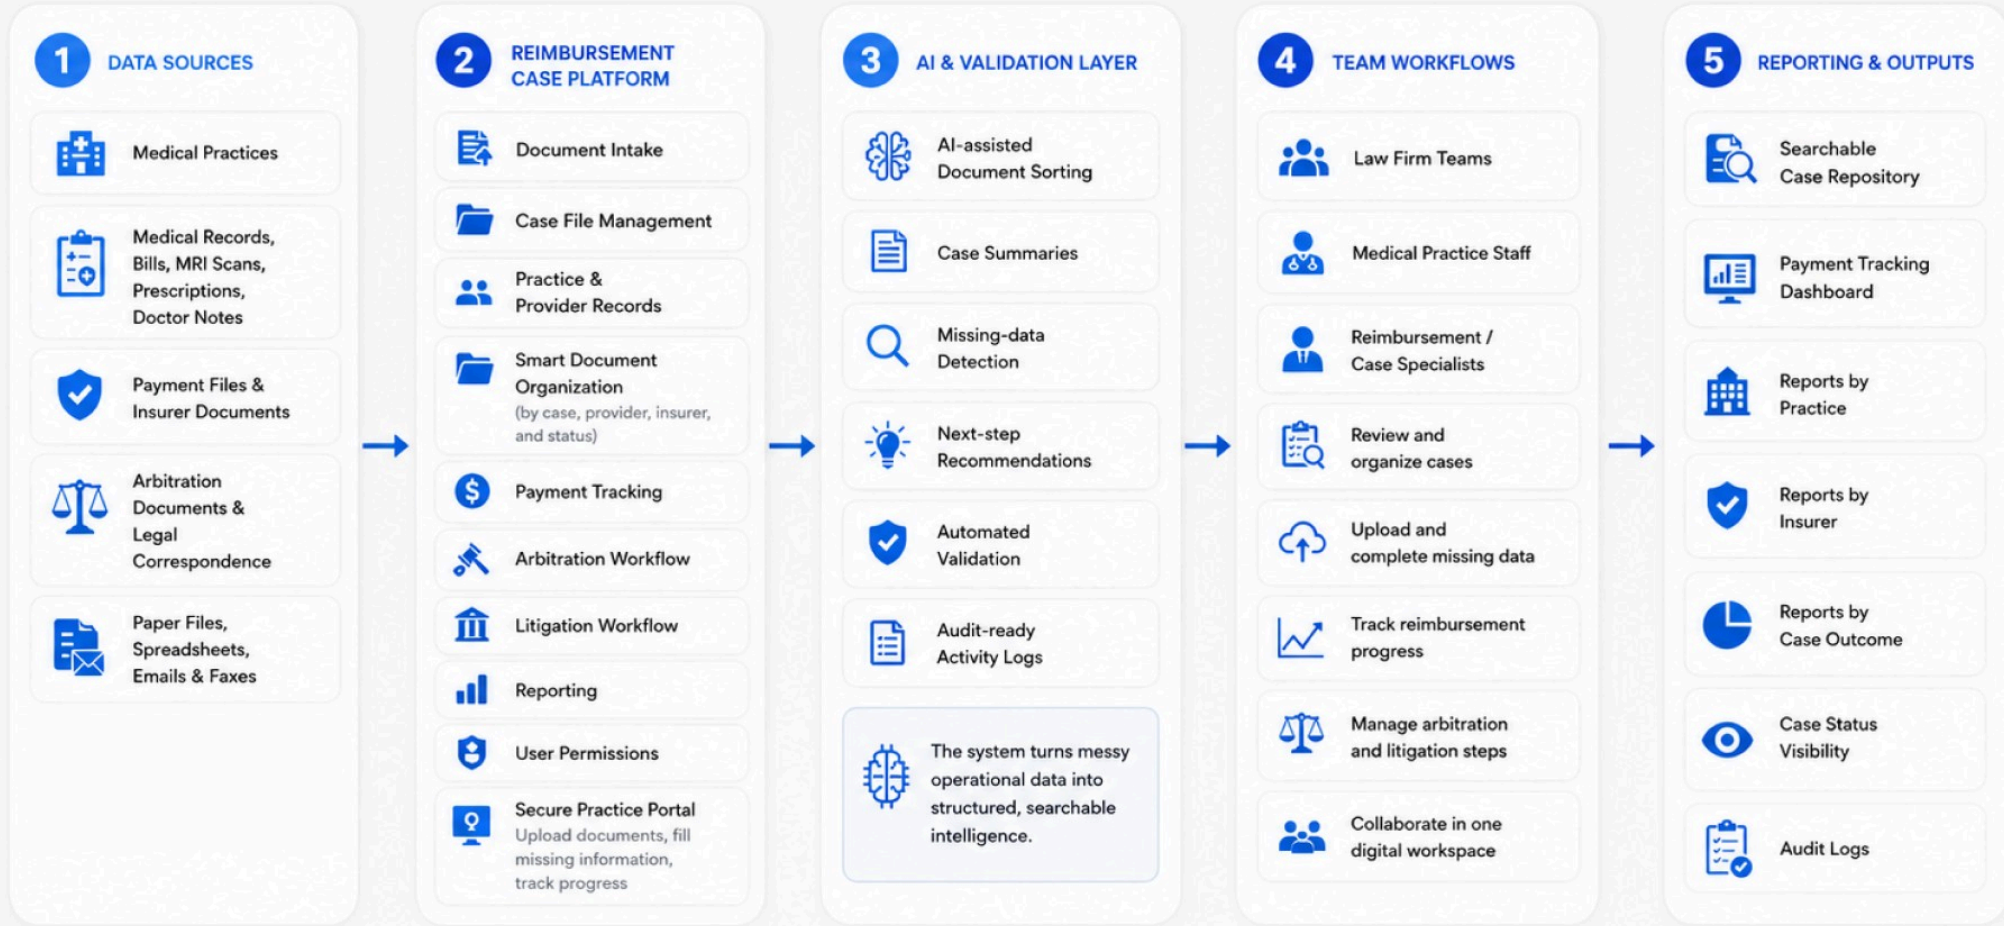

Payment tracking

Arbitration

Litigation

Reporting

Medical practices could securely upload documents, fill missing information, and track progress online.

Key capabilities:

EHR Data Integration and Normalization

Smart document organization by case, provider, insurer, and status

Custom reporting across payments, practices, insurers, and case outcomes

Automated validation to reduce missing or incorrect data

Audit-ready activity logs

AI-assisted document sorting, case summaries, missing-data detection, and next-step recommendations

Think: **less digging, faster review, better reimbursement visibility.**

# Data & AI Layer.

The platform turned messy operational data into structured, searchable intelligence.

# Security & Compliance.

Built for sensitive medical, legal, and financial data:

HIPAA- and SOC 2-  
aligned architecture

Role-based  
access control

Secure cloud  
storage

Encrypted data  
handling

Audit-ready  
workflows

Controlled access for law  
firm teams and medical  
practices

# Results & Impact.

**40-60%** less manual  
admin work

**20-30 hours** saved per  
week per employee

**50-70%** faster  
document retrieval

**60-80%** fewer data  
entry errors

**3x** faster case  
status visibility

**2x** faster reporting  
and decisions

**100%** role-based  
access control

HEALTH  
CARE

# Why It Matters For Medical Professionals.

Medical practices need reimbursement workflows that are fast, transparent, and secure.

This platform helps teams move from chasing paper, emails, and faxes to managing reimbursement cases in one controlled digital workspace.

The result: faster collaboration, fewer delays, and clearer visibility after care has already been delivered.

HEALTH  
CARE

# Zfort Group's HealthTech Advantage.

EHR Data Integration  
and Normalization

Secure healthcare  
workflow platforms

Medical document  
automation

AI-assisted case  
review

Custom reporting  
dashboards

HIPAA- and SOC 2-  
aligned delivery

Scalable infrastructure for  
high document volume
